

TITAN 10000E Worksite Generator

Code G1224J

Engine	Titan Industrial
HP	18.0HP
Max Output	8.4KW (10kVA)
Continuous Output	7.5KW (9kVA)
Outlets	2 x 230v 15amp IP66
Phase	Single
Starting	Electric Start
Noise Level	72 dB @ 7mtrs
Fuel tank size	25L
Low oil cutout	Yes
RPM	3000rpm
Weight	104KG
Dimensions (excludes wheels)	700mm(L) x 530mm(W) x 580mm(H)

- Super heavy duty roll frame with 4 wheels
- Large quiet muffler
- Low oil cut out
- Automatic Voltage Regulation for quality power output
- Industrial IP66 15amp power sockets
- RCD Cutout
- Designed to comply with NZ electrical work site regulations
- Battery included for electric start
- Pneumatic wheels for worksites
- Titan engines are full industrial spec with;
 - Cast iron cylinder liner
 - Ball bearing supported crankshaft
 - Dual element air cleaner
 - Electronic coil

Ideal for running large single phase items including welders
